

Lead-Safe Housing Registry

The City of Covington Lead-Safe Housing Registry is provided to inform the renting community of housing units that have been made safe from lead-based paint hazards. Lead-based paint is primarily found in homes and apartments built before 1978. The older the building, the more likely it is to have lead-based paint.

The units listed below were deemed lead-safe based on a lead evaluation in the month shown. "Lead-safe" means that there was no deteriorated lead-based paint, no lead-contaminated dust, and no exposed lead-contaminated soil identified at the time of the lead evaluation. This does not mean the property is "lead-free" as lead-based paint or lead in the soil may remain. On-going lead safety requires the owner to safely maintain paint coatings and soil covering and to use lead-safe work practices in maintaining or repairing the unit. Prospective renters or buyers should check with the owner to see if these practices have been followed.

This is a list of housing units that were lead-safe at the date indicated. This does not mean that the units listed are vacant or available at this time. Other units at a given property that are not listed here may or may not be lead-safe. The City of Covington makes no warranties as to the current condition of the property. Normal deterioration or activities of the owner, tenant, or others may have created lead hazards since the lead evaluation date.

The following units were determined to be lead-safe following their participation in the City of Covington Lead Hazard Remediation Program funded by the U.S. Department of Housing and Urban Development's Office of Healthy Homes and Lead Hazard Control.

Lead-Safe Housing

Property Address	Date of Lead-Safe Evaluation	Property Owner Contact
3825 Huntington Avenue, Covington, KY 41015	June, 2020	859-635-2885
